FISHER SEED & NURSERY CO.  
BELGRADE, MONTANA

## To Our Friends and Customers

We are pleased to present you with our catalog for 1941 and hope you find it instructive and useful.

We are located on highway No. 10, the first place east of the elevator in Belgrade. Visitors are always welcome.

The numerous items listed have been selected with the greatest care. Every lot of seeds is tested in the strictest manner before being offered for sale. We have been growing most all of our seed for several years that we use in growing our garden. In tests made with other seeds we have found that the seeds grown in this altitude give the best results.

You will notice that most items are priced postpaid to you. For those not prepaid just send us a card and we will quote you a postpaid price. Trees over 4 feet must go by Express.

Shipping season for trees and shrubs begins about March 15 and continues to about May 15 depending on whether the season is early or late. We advise planting trees and shrubs before they leaf out as you will be more sure of success.

Order early and avoid delay. Early in the season we have a complete stock of all varieties and you can be sure of getting what you want by ordering then.

We thank you for your patronage in the past and if you have never purchased from us we hope that you will give us a trial. We are sure you will become one of our satisfied customers.

## Pansy Plants

We pride ourselves on our Pansies. We secure the finest strains, start them in the fall and winter them outside. They usually start to bloom in April. The plants are hardened and have strong root systems. They grow and produce big, fancy flowers.

**RUFFLED GIANTS** These are giant flowers, some being 4 inches in diameter. Many are ruffled and frilled. Grand assortment of colors. Doz. 40c; 3 doz. \$1.00, postpaid.
